## **Objective**

---

Passionate and detail-oriented Computer Science final year student with a solid foundation in Core Java, object-oriented programming (OOP), Exception handling, and basic SQL. Eager to apply Java skills in real-world software development and contribute to a collaborative, growth-focused team environment.

## **Skills Summary**

---

- **Languages:** Java, Python (Basic), HTML&CSS
- **Concepts:** OOPs, Exception handling, File I/O, Servlet and JSP
- **Frameworks:** Bootstrap, Hibernate
- **Database:** MySQL
- **Tools/Technologies:** GitHub, Maven, JDBC, Eclipse

## **Training**

---

### **Java Full-Stack | Barrownz Learning Academy, Lucknow.**

Jul'25-Present

- Gained hands-on experience with J2EE technologies, developed a comprehensive understanding of OOPs, Exception handling, File I/O, Hibernate, and MySQL.
- Proficient in building dynamic web applications using Servlets and JSP (Java Server Pages).
- Enhanced skills in database interaction and integration using JDBC.

## **Projects**

---

### **eBook Shop | Java, JSP/Servlet, JDBC, MySQL**

- Developed a full-stack e-commerce web app using MVC architecture with user authentication, shopping cart, and order processing backed by a centralized MySQL database.
- Optimized JDBC queries and modularized code to improve performance, scalability, and maintainability.

### **College Management System | Java, JSP, JDBC, MySQL**

- Built a role-based web application (Student/Admin) with features for study material access, feedback submission, and course management.
- Designed an admin dashboard to upload materials, manage courses, and review feedback, streamlining academic operations.

## **Education**

---

### **Goel Institute of Technology & Management, Lucknow**

Bachelor of Technology - Computer Science and Engineering

2023 - 2026

### **Mahamaya Polytechnic of Information Technology, Amroha**

Diploma – Information Technology

2020 - 2023
